TOO MUCH MONEY TALK

Big Trades a Disgrace-World Series Contribution Insult to the Nation.

By Capt. T. L. HUSTON, E. O. R. C. Part Owners of the New York Club of the American League. SOMEWHERE IN FRANCE. - The late

newspapers received here (January 15 being the latest) depict baseball as being again torn with trouble, and this time it is with the perplexity of what to do under the existing national crisis. Being vitally financially interested in baseball, and as myself, son and sonin-law are serving in the United States Army in this war, perhaps I am able and entitled to discuss the question fairly and frankly from both viewpoints.

As I see it from this far off lookout

station baseball wants to do its duty by the nation and at the same time it nat-urally desires to avoid the sacrifice of

its entire invested rights and property. Should the draft hit any one club un-reasonably hard or should any stars like. Ty Cobb, Tris Speaker, Walter Johnson or Frank Baker be drafted I am sure that an appeal to Gen. Crowder, who is an eminently fair man, or even to President Wilson, who seeks not the death of any American institution, will bring about the same fair treatment which is constantly being accorded other lines of business.

Possibly if one club is riddled badly by the death of the possible of the same than the others.

by the draft worse than the others it should be strengthened by some internal legitimate means. But baseball must watch closer the signs of the times. The Alexander-Killefer deal as well as the sale of Bush, Strunk and Schang indicated that it is strangely out of step with national events. The loud pub-licity given the purchase of players for the large sums of \$60,000 to \$50,000 will be a harsh, discordant note in the ex-isting worldwide atmosphere of economy, retrenchment and sacrifice and tend to
